Keywords: This is; an example; of the style; for keywords. Please use about 10
keywords and separate them with semi-colons.

1 Purpose of this paper

What is/are the reason(s) for writing the paper or the aims of the research?

2 Design/methodology/approach

How are the objectives achieved? Include the main method(s) used for the research. What is the approach to the topic and what is the theoretical or subject scope of the paper?

3 Findings

What was found in the course of the work? This will refer to analysis, discussion, or results.

4 Research limitations/implications (if applicable)

If research is reported on in the paper this section must be completed and should include suggestions for future research and any identified limitations in the research process.

5 Practical implications (if applicable)

What outcomes and implications for practice, applications and consequences are identified? Not all papers will have practical implications, but most will. What changes to practice should be made as a result of this research/paper?

6 Social implications (if applicable)

What will be the impact on society of this research? How will it influence public attitudes? How will it influence (corporate) social responsibility or environmental issues? How could it inform public or industry policy? How might it affect quality of life? Not all papers will have social implications.

7 What is original/value of paper

What is new in the paper? State the value of the paper and to whom.

Formatting Guidelines

1 This is an example of a first level heading

This is an example of the style for a second level heading

This is an example of the style for a third level heading

2 Styles and referencing

Referencing, and text styles

This is an example of the style for a first paragraph after any heading, figure, table, list, quotation or formula. References and citations must be made using the IEEE system. If you are unfamiliar with this system please refer to the attached IEEE Citation Guide.

This is an example of the style for a subsequent paragraph.

When working with bulleted lists, use the following styles:

- This is an example of the style for a list of bullets
 - This is an example of the style for a sub-item in a bulleted list

When working with numbered lists, use the following style:

1. This is an example of the style for a numbered list
2. This is an example of the style for a numbered list
3. This is an example of the style for a numbered list

If you state a hypothesis, then use the hypothesis style.

Hypothesis 1 This is a hypothesis in the hypothesis style

And if you make a quotation longer then use the quotation style and place a carriage return both above and below the text.

“This is an example of the quotation style.”

This is an example of how to state a formula:

$Y = ax + b$ (This in the style for equations)

Figures and tables

Figures and tables should be numbered sequentially and placed in the body of the text.

Figure 1 This is the title of my figure and it goes below my figure.

Table 1 This is the title of my table and it goes above my table

<i>Table heading style</i>	<i>Table heading style</i>
Table style centered	10
Table style left	20
Table style right	30

Source: This is the style for sources.

References and Notes

Full reference should include all authors' names and initials, year of publication, title of paper, title of publication (*italics*), volume and issue number (of a journal), publisher and form (book, conference proceedings), page numbers. References and citations should be in the IEEE style (see also: https://www.ieee.org/content/dam/ieee-org/ieee/web/org/conferences/style_references_manual.pdf).
