

Postdoc Assistant Professorship (m/f/x) for BI and digitalization in the financial sector (34h)

Move our students forward with your job as a professor at the FH Upper Austria.

FH OÖ Studienbetriebs GmbH

Fakultät für Wirtschaft und Management

Your Tasks

You will organise and coordinate courses in the areas of Business Intelligence and digital transformation in controlling and accounting and hold them on your own responsibility. As a coach and supervisor, you will support our students during their final theses. You will be responsible for the content design, management and coordination of interdisciplinary projects, as well as the acquisition of research projects and the establishment of research groups. Your tasks will include participating in conferences and writing high-quality publications as well as actively helping to build relationships with external partners. With commitment and innovative ideas, you will actively participate in the further development of the University of Applied Sciences Upper Austria in organisation/development of use cases for the digitisation centre. Your tasks will also include administrative work.

Your Profile

You have completed a doctorate in economics or engineering and have didactic qualifications and experience in university teaching. With initial professional experience in the field of Business Intelligence/ERP software (e.g. Power BI, SAC, SAP, Power Automate, etc.), you have already had the opportunity to work on or lead research projects. You enjoy imparting knowledge and interacting with students, and you also have the relevant qualifications for applied research and scientific publication activities. You have a very good command of German and English and are willing to actively contribute your ideas to the further development of the University of Applied Sciences Upper Austria.
