

# Professorship (m/f/x) for Smart and Sustainable Society 20h

Move our students forward with your job as a professor at the FH Upper Austria.

**FH OÖ Studienbetriebs  
GmbH**

Fakultät für Medizintechnik und Angewandte  
Sozialwissenschaften

Leading Transformation for Impact  
Organizations

## Your Tasks

You will organise and coordinate courses at the interface between “technology”, “sustainability” and “societal change” and hold them on your own responsibility. As a supervisor, you will Coach our students during their final theses. You will be responsible for the content design, Management and coordination of interdisciplinary (research) projects and develop, implement and evaluate new didactic methods. In addition to taking on management tasks in teaching, studies and research, you will also play an active role in organisational development. Your tasks will include participating in conferences and writing high-quality publications as well as helping to build relationships with external partners. Administrative work specific to the utilisation group, e.g. committee work will complement your area of activity at the FH Upper Austria.

## Your Profile

You have completed a doctoral program in environmental sciences, data science or IT and have didactic qualifications and experience in university teaching. You have proven knowledge of applied research, several years of management experience and/or practical experience in the field of digital transformation and/or sustainability. You have experience with virtual teaching concepts and can communicate complex topics to a non-IT-savvy audience in a creative way. You are familiar with the acquisition of research projects and corresponding funding, as well as the development of research projects and the management of research teams. You are comfortable building and strengthening networks. You enjoy imparting knowledge and interacting with students, have a very good command of German and English and are prepared to further develop the FH Upper Austria with commitment and innovative ideas in the field of Smart & Sustainable Society.
