Library Search Engine Primo https://search-fho.obvsg.at

The search in the basic setting covers all 4 campus libraries of the University of Applied Sciences Upper Austria / FH OÖ (Hagenberg, Linz, Steyr, Wels). https://search-fho.obvsg.at

Members of the FH OÖ can borrow media from all 4 libraries.

Advantages of Anmelden/Sign In with the FH OÖ account:

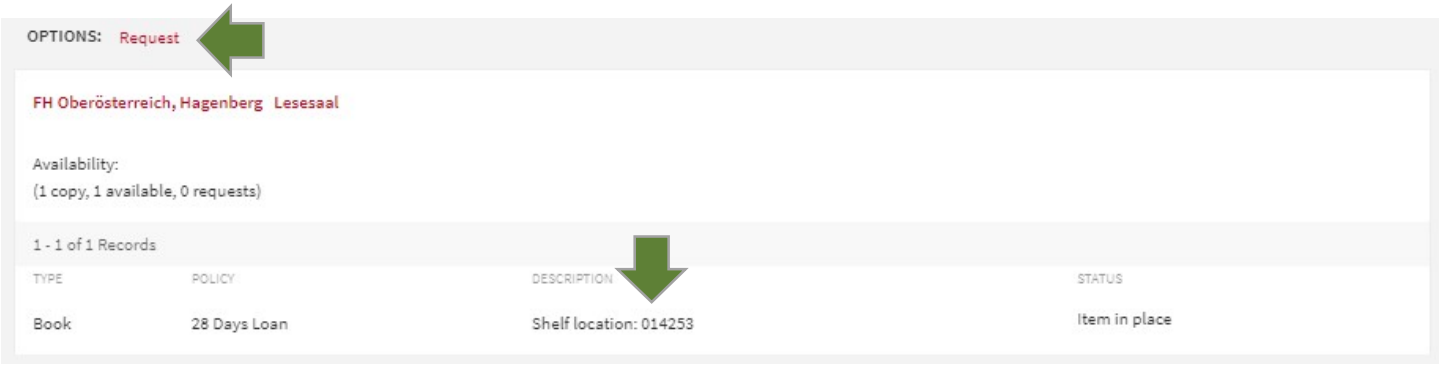

- **Full text access** to licensed e-books, e-journals and database content
- **Make reservations** on borrowed media **yourself**
- Independently **extend loan periods for your borrowed media**
- **Set favorites:** Save individual titles or search queries for later

Which search area would you like to use, “Catalog” or “Catalog Plus”?

Catalog = out print media, licensed e-books and e-journals
Catalog Plus = print media, licensed e-books, e-journals **plus** full texts from our databases and freely available open access sources

Print stock, please note the **Shelf location** (= shelfmark) of the item so that you can find it on the shelf.

If the book is currently on loan or in the magazine, you can **Request** it directly and we will inform you by e-mail as soon as it is available. In this case it is also necessary to be signed in to PRIMO.

In the **Collections** tab of our library search engine PRIMO you will find an overview of the **Master's theses** (Abschlussarbeiten) of our graduates, sorted by degree program with filter options by year, author, title, thesis supervisor and specific search options for individual theses.

You can also find literature lists and handouts on courses at the Hagenberg campus in **Collections** (Sammlungen). Please just try it out https://search-fho.obvsg.at/.
